

## – QCMF 2015 – Adjudicator Top Repertoire Picks *Compiled List*

As part of enhancing educational outcomes for students who have attended the festival this year, will be attending next year, or may never attend but work with the teachers who performed at QCMF 2015, adjudicators were asked to recommend **up to 5 works** heard performed in sections that they believed were of **educational value**. These may not be master-works but, were in the adjudicators' **professional opinion exemplars of the repertoire** at the level of works based on the section criteria.

N.B. – these may not have been the **most effectively performed** songs in the section. Some adjudicators felt that no works in the section met the above criteria and hence made no recommendations.

This list is **not intended as a syllabus** but as a means of **guiding repertoire selection for teachers in the future**.
